Linear - Kon - Tiki

pyrolysis kiln for flame curtain pyrolysis

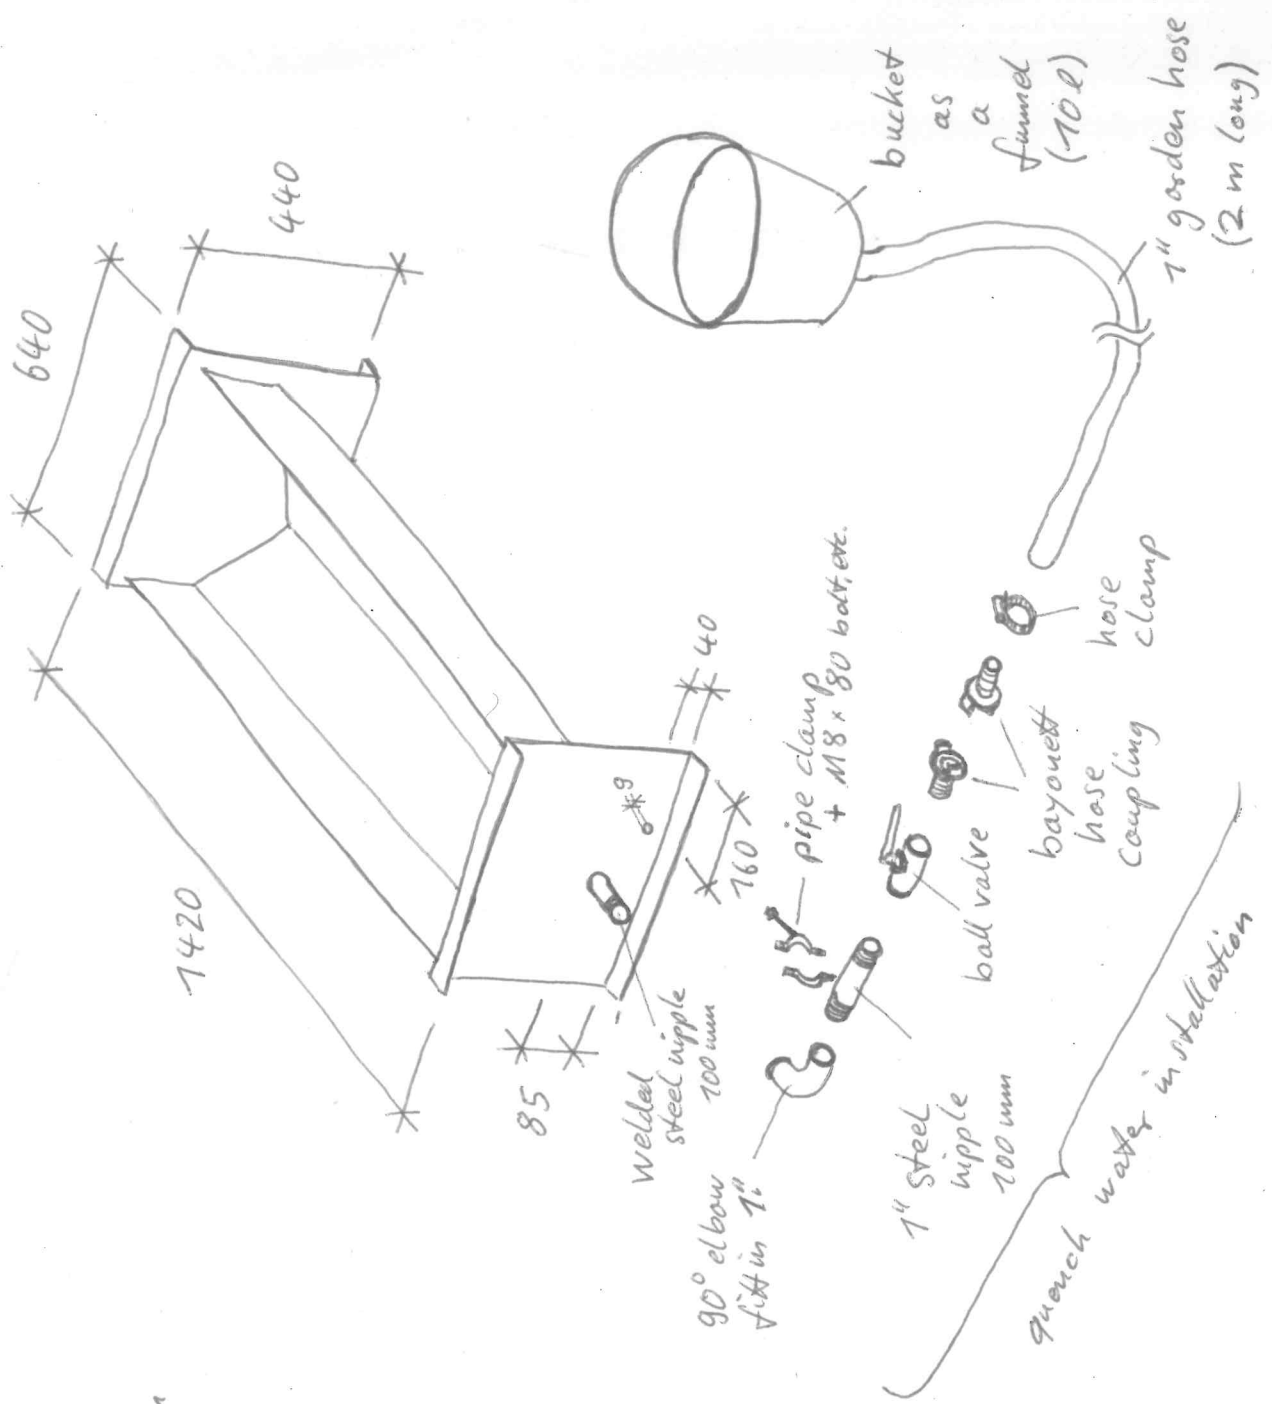

material

3mm steel sheet
sheet metal panel of 1,0 x 2,0 m
("kleinformast")

mass ca. 50 kg
Volume ca. 180 L

features

- elongated form as an ideal form for branches
- efficient use of material in building: 0% loss!
- easy to build
- human scale
 - portable
 - transportable with Carla Cargo bicycle trailer
